FRAMATOME
Tour Framatome, 1, Place de la Coupole,
F-92400 Courbevoie
(France).

Legal nature of the holder (legal entity) and place of organization: Société Anonyme, France.

Name and address of the representative: CABINET LAVOIX, 2, Place d'Estienne d'Orves, F-75009 PARIS (France).

Framatome ANP

Indication relating to the nature or kind of mark: standard characters.

List of goods and services:

1 Chemicals for use in industry; chemicals in the form of fertile or fissile materials used as reactor fuel; chemical products for scientific and photographic purposes; unprocessed artificial resins; fire-extinguishing compositions; metal tempering and soldering preparations; adhesives used in industry; uranium, plutonium, radioactive elements for use in the field of nuclear engineering.

4 Industrial oils and greases; lubricants; dust absorbing, wetting and binding compositions; fuel (including petrol) and illuminants; nuclear fuel.

6 Common metals and their alloys; metallic construction materials, transportable metallic constructions; non-electrical metallic cables and wires; metal hardware; metal pipes; ores; metallic gratings and tubes, metal vessels for nuclear reactors, metallic fuel assemblies, metallic canisters (containers).

7 Machine tools; engines (other than for land vehicles); transmission couplings and belts (excluding those for land vehicles); pumps, pump sets; mechanical equipment used for and in nuclear engineering, turbines, pressurizers, turbo-compressors, rod drive mechanisms, as well as all replacement parts therefor, motorised robots, robots.

8 Hand-operated hand tools and implements.

9 Scientific (other than medical), nautical and surveying apparatus and instruments, apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current, photographic, cinematographic, optical, weighing, measuring, signalling, monitoring (inspection), rescue (emergency) and teaching apparatus and instruments; apparatus for recording, transmitting or reproducing sound or images; magnetic and digital recording media, sound recording disks; optical compact disks, diskettes, calculating machines; equipment for data processing, computers, computer software including computer programs designed to be used with and on global communication networks, on local communication networks and the World Wide Web and computer programs available on-line on global communication networks, on local communication networks and the World Wide Web; magnetic cards, smart cards; microprocessors, assistance and analysis software used in nuclear industry; expert system generators; cameras for monitoring and inspecting equipment in a nuclear power station; electrical or electronic hand tools; fire extinguishers.

11 Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, supplying water, electricity and sanitary installations; steam generating apparatus; nuclear reactors; installations (machines) for producing and refining nuclear fuel, wind turbines; heat and steam accumulators, heat and steam regulators, heat exchangers; fluid cooling systems.

12 Vehicles; apparatus for locomotion by land, air or water.

13 Firearms; ammunition and projectiles; explosives.

16 Paper and cardboard (unprocessed, semi-processed or for stationery or for printing purposes); printed matter; bookbinding material; photographs; stationery; adhesives for stationery or household purposes; instructional and teaching materials (excluding apparatus); plastic materials for packaging (not included in other classes), namely bags, sachets, films and foils; printers' type; printing blocks.

35 Advertising and promotional services and related consulting services, business management and organisation advice relating to nuclear engineering and armament, all such services being provided on-line or in a store-and-forward format from data processing systems, computer databases or computer or telematic networks, including global communication networks, local communication networks and the World Wide Web; advertising; business management; business administration; office work; distribution of brochures and samples; newspaper subscription services for third parties; business advice or information; rental of advertising material; computer file management; organisation of exhibitions for commercial or advertising purposes; business information.

36 All insurance and financial services rendered in the field of armament and nuclear engineering; financial information; portfolio management; real estate valuation; property management.

37 Construction, repair and dismantling services rendered in the field of armament and nuclear engineering; information relating to construction and repair in the field of armament and nuclear engineering; construction of buildings, civil engineering; rural projects; rental of building tools and equipment, bulldozers, tree extractors; upkeep and cleaning of buildings, premises, floors (facade cleaning and restoration); repair of instruments and tools; nuclear maintenance, monitoring and inspection services, response services and maintenance or repair of nuclear power plant equipment.

38 Telecommunications; press and information agencies; communication via computer terminals; radio, telegraph or telephone communication services, transmission of data by teletypewriter; transmission, communication and telecommunication services via any means, including electronic, computer and telephone equipment; transmission, communication and telecommunication of messages, information and any other data, including data which is provided on-line or in a store-and-forward format from data processing systems, computer databases or computer or telematic networks, including global communication networks, local communication networks and the World Wide Web; electronic and computer mail and messaging services; provision of news and information by telecommunication means; provision of access via telecommunication and connection to data processing systems, computer databases or computer or data communication networks, including global communication networks, local communication networks and the World Wide Web; telecommunication services provided via global communication networks, local communication networks and the World Wide Web; transmission of data obtained via access codes to computers and communication networks, including global communication networks, local communication networks and the World Wide Web, to texts, electronic documents, databases, graphics and audiovisual information; transmission of information available via access codes to computer programs via personal web page interfaces; transmission of information via computers and via communication networks, available via access codes and relating to periodicals and other printed matter in connection with global communication networks, local communication networks and the World Wide Web using computers and communication networks, electronic mail services; instant electronic messaging services.

39 All transport and storage services rendered in the field of armament and nuclear engineering; transportation of goods; water and power supply services; newspaper distribution; ferryboat operating; marine towing, unloading of ships; packaging of goods; rental of transport vehicles;

storage; storage of merchandise in a warehouse for preservation or safekeeping purposes; garage rental.

40 All materials processing services rendered in the field of armament and nuclear engineering; information about materials processing; services rendered during the manufacturing process of any product, other than a building; sawing, planing; cutting, polishing, metal coating; services consisting of preserving an object through transformation; document binding; tin-plating; air purification and regeneration.

41 Education and entertainment services rendered in the field of armament and nuclear engineering; educational institutions; publication of books and reviews; shows; radio or television entertainment; production of films; rental of films, phonographic recordings, cinematographic projection apparatus and accessories; organisation of competitions in the field of education or entertainment.

42 Rental of access time to computers and communication networks, including global communication networks, local communication networks and the World Wide Web, to texts, electronic documents, databases, graphics and audiovisual information; rental of access time to computer programs via personal web page interfaces; computer rental services; design of graphics, drawings and texts for producing web pages on global communication networks, local communication networks and on the World Wide Web; on-line provision of information from computer or data communication databases or from global communication networks, local communication networks and the World Wide Web; provision of virtual facilities for real-time interaction of computer users (forums); rental of access time to periodicals and other printed matter relating to global communication networks, local communication networks and the World Wide Web via computers and via communication networks; software design, software updating, rental of computer software, software maintenance, specialised computer advice, computer rental, computer programming, computer advice and consulting services, rental of access time to a computer or data communication database; engineering, professional consulting and drawing up of plans unrelated to business dealings; engineering works (not for building purposes); prospecting; materials testing; laboratories; rental of farming equipment; printing services; engineering services, information technology services; services rendered in the field of aeronautics, armament and nuclear engineering, namely engineering services for research and development in the field of information technology, aeronautics, nuclear engineering and armament; scientific calculations, design and engineering services, computer-assisted or otherwise, for building and maintaining nuclear power plants and related equipment; monitoring services, operated by microprocessors, monitoring services with the help of interactive screens in the field of aeronautics, nuclear engineering and armament.

FocusSound

Indication relating to the nature or kind of mark: standard characters.

List of goods and services:
9 Ultrasound reproduction appliances, ultrasound loud-

speakers, ultrasound transducers, electric, electronic and optical measuring, signalling, checking (supervision) apparatus and instruments included in this class, in particular electric apparatus and instruments for electroacoustics and parts therefor, included in this class; apparatus and instruments for recording audio signals and parts thereof, included in this class; microphones, in particular dynamic microphones, condenser microphones, electret microphones, head strap microphones, swan-necked microphones, directional tube microphones, wireless microphones, plug-in microphones; microphones with integrated transmitters, in particular condenser microphones with built-in high frequency transmitters, microphones modules, solo microphones, pressure microphones, two-way switch microphones, interfacial microphones, microphone capsules and parts and accessories for the aforesaid goods, namely desk mounting devices, windscreens, stands, quick-change adapters, screw bases, cross arms, protective cases, artificial heads, contact holders, crocodile clips, magnetic holder sets, cables, in particular steel core cables, copper core cables, connection cables, mains power adapters, in particular for batteries and phantom circuits, filters, in particular switchable depth filters to combat impact sound, structure-borne noise and wind and pop noise, pivoted holding devices, mains apparatus, quick change clips, desk stations, double clamps, microphone hinges, recording protection devices, wind protection devices, wind protection sleeves, re-recording protection devices, swivel arms, wind protection sets for microphones, camera adapters, magnet clips, microphone clips, pistol grips for microphones, stand holders, wind protection devices with marking rings, electret microphone capsules, sleeves for holders for wind protection devices, microphone suspension devices, microphone stand adapters, floor stands, microphone inclining devices, elevation pipes, stand extensions, table connectors, wind protection devices, electric accessories for apparatus and instruments for sound studios, namely schock-mount suspension, power units, light signalling apparatus, transfer units, in particular total and difference transfer units, textile-covered cables, adapter cables, reducing pieces, dust covers, microphone cases, microphone hinges, double-pole stands, windscreens pop shields, elastic suspension devices, stand extensions, antivibration pads, electroacoustic transformers in particular headphones, dynamic headphones, electrostatic headphones, wireless headphones, headphones for use in aeroplanes, buses and trains, in particular with infrared transmission, headphones with active noise compensation, loudspeakers, parts and fittings for electro-acoustic transformers and headphones, namely ear pads, volume controls, amplifiers, namely high end and thermionic amplifiers, accumulator contacts, socket charging apparatus, handset cables; apparatus for transmitting sound or video signals, in particular high-frequency sound transmitting technology apparatus, transmitting devices, in particular pocket transmitters; pocket UHF and VHF transmitters and parts and fittings for the aforesaid goods, namely aerials, battery packs, accumulator packs, plug-in microphones, mini-module systems, protection pouches, corkscrew aerials, quick charging accumulators, power supply units for charging apparatus, automatic charging apparatus, shoulder strap devices for transmitting and receiving apparatus, manual and shoulder strap transmitters for communications installations, diversity receivers, small handsets, ear-worn transducers, head aerials, BNC (bayonet nut connector) double sockets, coaxial cables, N/BNC adapters, room aerials, compact receivers, in particular UHF and VHF compact receivers, telescopic aerials, plug-in power supply, aerial mounts, 19-inch Rack adapters, charger strips, replacement ear pads, transport and carrying cases for the aforesaid goods, directional recording apparatus, in particular wide band transmitters with command receivers, return channel transmitters, diversity program receivers, command transmitters; aerials, transmitter aerials, remote aerials, shoulder aerials, transceiver aerials, telescopic aerials, corkscrew aerials, aerial mounts, unidirectional aerials, aerial duplexers, aerial two-way splitters, aerial amplifiers, aerial cables, stands for aerials, and parts and fittings for the aforesaid goods, namely mounting plates, charger strips, cases with charging apparatus, etched parts, dummy plates; apparatus for narrow-band and wide-band systems in sound transmitting technology, transmitters, in particular multichannel transmitters and single channel transmitters, infrared transmitters, high-power transmitters, in particular high-power transmitters with low-frequency input, boosters transmitters, receivers, in particular multi-channel and double-channel receivers; headsets, double-channel chin-strap receivers, and parts for the aforesaid goods, sound transmitting apparatus, infrared transmitters and receivers, in particular mono, stereo, double-channel and chin-strap receivers and parts for the aforesaid goods, namely ball and socket joints, mounting plates, lap straps, shoulder strap devices, induction loops; communications technology instruments, in particular communication devices, hearing and speech attachment, apparatus and instruments for conferencing and telecommunications technology, flight safety, reporting and military communications, parts and fittings for the aforesaid goods, namely ear pads, cable clips, windscreens, speech equipment for telecommunications, boom sets, in particular for air travel, including the aforesaid goods with active noise compensation, adapter cables, hygiene pads, cable clips, wind screens, sound insulating apparatus, in particular in the form of headphones; receiving apparatus, in particular UHF receivers, HF input modules, apparatus for recording and reproduction of electric signals, in particular sound signals, loudspeakers, channel selection devices, apparatus for the wireless transmission of acoustic information; data carriers containing programs, software, in particular on floppy disks, tapes, disks; technical medical apparatus, included in this class; audio apparatus and instruments, including audio apparatus and instruments for sound studios, and structurally defined components therefor.

10 Medical audiological apparatus and instruments; electric hearing aids, hearing amplifiers, electrically operated hearing aids, speech therapy apparatus, in particular wireless transmission apparatus for the deaf and hard of hearing.

42 Technical consultancy and development of conceptions in the field of electro-acoustics and for use of all the aforementioned goods.

LEGRAND
128, avenue du Maréchal de Lattre-de-Tassigny,
F-87000 LIMOGES
(France).

Legal nature of the holder (legal entity) and place of organization: société anonyme, FRANCE.

Name and address of the representative: CABINET BONNET-THIRION, 12, avenue de la Grande-Armée, F-75017 PARIS (France).

VOLTIMUM

Indication relating to the nature or kind of mark: standard characters.

List of goods and services:

9 Apparatus and instruments for electric current supply, conducting, transmitting, distribution or repair; electrical fittings and wiring accessories; switches; section switches; changeover switches; relays; toroids; distribution frames; cut-outs; fuse cartridges; industrial cartridges (electrical); electrical connections; electrical connection boxes; supply harnesses; terminal blocks; lightning arresters; push actuators; electric indicator lamps; dimmers; time-lag switches; telerupters; contactors; timer switches; electric control devices for heating and energy management; heating programmers; thermostats; load shedders; meters; ammeters; voltmeters; transformers; autotransformers; buzzers; bells (alarm apparatus); chimes (signalling apparatus); alarm apparatus and instruments; detectors; control and command apparatus controlled by fire alarm systems; boxes and cabinets for electric and electronic apparatus and fittings therefor; subscriber boards (electricity); trunking, mini-trunking, skirting trunking and columns for electrical apparatus and electric conductors; cable trays for electric conductors; technical distribution slabs (electricity); electrical fittings and wire accessory units; junction boxes (electricity); plug connectors; connectors; junction contacts; junction grids; terminals (electricity); cut-out bars; plugs (connectors); adapters (electricity); extension cords; sockets; multi-outlet socket blocks; household programmers; electric cable winding devices; control apparatus for atmospheric lighting; electric controls for roller shutters; electric controls for blinds; electric controls for lighting; cable outlets; call panels; supports, surrounds, plates adapters and mechanisms for electrical fittings and wiring accessories; flush boxes (electricity); transmitters; receivers; aerials; apparatus for controlling heating and other functions by telephone; electric contacts for doors; door interphones for buildings and houses; interphones; videophones; electric strikers; controls with coded keypads for access control; remote controls; infrared controls; interfaces for detectors; sirens; boxes for sirens; radio and television reception central units (terrestrial and satellite signal amplifiers); electric apparatus for controlling and managing lighting; self-contained access control readers and electronic keys therefor; feed-through and/or patch panels (electrical connections); drawers for optical fibres; remote control boxes; electromagnetic suction cups and automatic controls for fire-doors and emergency exits; emergency electricity supply cabinets; audio diffusers for emergency evacuation; control boxes for emergency exits and extinguisher systems; boxes for emergency cut-out or stop devices; controls for smoke removal fans; alarm central units; rotating lights (signalling); flashing lights; blinking lights; luminous signals; flashing lights with audio signal; consoles (desks) and cabinet-consoles for electrical or electronic apparatus and fittings therefor; feed-through sleeves (electricity); ducting for electric cables; progressive starter retarders; electric power supplies; junction blocks; control modules; modules with diodes; cable end caps; markers for electric conductors; clamps for conductors and electrical fittings; momentary contact push-buttons and turning knobs for electric controls and signalling; mushroom head emergency cut-out buttons; industrial alarms; industrial plugs and sockets; industrial socket cabinets; connector bases; moveable sockets; apparatus, devices and instruments for technical teaching and training in electricity and electron-

ics as well as in the assembly, installation, use and maintenance of electrical apparatus and installations, including cabled teaching panels, equipped with electrical circuits, fittings and/or apparatus, synoptical switchboards, simulation apparatus and installations; batches of ready-to-mount parts and fittings for electrical or electronic apparatus, for the purposes of technical education and training; video cassettes and digital video discs pre-recorded with films intended for technical education and training purposes, all in the area of electrical fittings and wiring accessories; software for education, instruction and training, notably in the form of floppy disks, CDRoms, recorded data bases, all in the area of electrical fittings and wiring accessories; parts and fittings for all the aforesaid goods; software to aid in the design and creation of electrical installations, to aid in the determination of the nature, quality, properties and quantities of apparatus and equipment necessary to these ends as well as of the rules of standardisation and conformity applicable to the latter, to aid in the writing of the descriptions of the aforesaid apparatus and equipment, in the costing and updating of the corresponding quotations, in the ordering of the aforesaid apparatus and, in the invoicing, the displaying of costs prices, to aid in sales, in the monitoring of worksites; software for producing drawings of electrical installations; software for taking and managing orders, notably for electrical fittings and wiring accessories, with costing at the distributor's prices; software for managing customer files; exploration software allowing access to digital information services on computer and data telematics networks, the retrieval and displaying of data and information (such as: catalogues, electronic documentation, product manuals, certificates of conformity, study software, multimedia presentations, wiring diagrams, software for taking and managing orders with costing at the distributor's prices), all in the area of electrical fittings and wiring accessories; recorded data bases in the area of electrical fittings and wiring accessories; software for the identification of conductors and components entering into the construction of electrical equipment, notably of the cables and apparatus in the electrical cabinets and boxes; plotting tables for the identification of electrical installations and circuits; electronic or optical devices for displaying the conductors and components in electrical fittings; software for creating labels for identifying modular electrical apparatus and circuits; software for designing distribution boards (electricity), notably the lists of parts, layout drawings, cost prices and installation costs.

11 Apparatus and installations for lighting, heating, refrigerating, ventilating, aerating, air conditioning, water and fluid supply; parts and fittings for all the aforesaid goods.

16 Printed matter concerning electrical fittings and wire accessories, as well as the areas of electrical installations, lighting, electric control, signalling, surveillance, alarm, access control and/or home automation systems; printed guides and manuals concerning the use of software in the area of electrical fittings and wiring accessories or intended for electricians and the installers of electrical apparatus; pedagogical materials and support for technical education and training in electricity as well as in the areas of assembly, installation, use and maintenance of electrical apparatus and installations, including: pedagogical files, writing books and practical work files or corrections, files (bindings), index cards, transparencies (stationery), guides, manuals, instruction and maintenance notes, diagrams, posters, catalogues, pedagogical boards, models.

35 Advertising; distribution of promotional and advertising material, namely leaflets, prospectuses, catalogues, printed matter and samples; publication and dissemination of advertising matter and promotional and advertising texts; rental of advertising space; publication of advertising texts; constitution and updating of commercial and advertising material and catalogues of goods and services; constitution and updating of customer files; selection of goods and services (for others); marketing services; demonstration of goods; advertising by mail order; bill-posting; radio, television, telematic and cinema advertising and promotion, as well as on telecommunications or computer networks; organisation of exhibitions and events for commercial and/or promotional and/or advertising purposes; commercial and business information services; assistance to companies with their commercial strategy; business management assistance; commercial administration; compilation and exploitation of statistical data; statistical information; marketing research and studies; market surveys; opinion polls; public relations; commercial information agencies; arranging newspaper and periodical subscriptions (for others); document reproduction; document layout; office work; management, collection and systematisation of data in a central file; computerised file management; auctioneering services; auctioneering services by means of electronic communications networks; inquiries services for others in the areas of business, commercial administration and company management; loyalty club or programme services for clientele, all for commercial and/or promotional and/or advertising purposes; all the aforesaid services relating to the areas of electrical fittings and wiring accessories, electrical installations, lighting, electric control, signalling, surveillance, alarm, access control and/or home automation system apparatus and installations; the aforesaid services being consultable or available by telematic means or on telecommunications or computer networks; subscriptions to telecommunications services.

36 Secure payment services on telecommunications and computer networks.

37 Installation, servicing, maintenance and repair services for electrical fittings and wiring accessories, electrical installations, lighting, electrical control, signalling, surveillance, alarm, access control and/or home automation system apparatus and installations; assistance services in the aforesaid areas, by telephone or by electronic communications networks.

38 Telecommunications services; satellite telecommunications; telecommunications by telematic means or on telecommunications or computer networks; communications by telephone and radio, by computer terminals, telematics, by network computer; communications by fibre optic networks; transmission of information by electronic communications networks; radio and television broadcasting; broadcasting of radio and television programmes; transmission of sound, images, data, text, messages, including computer-aided transmission; facsimile transmission; telephone services; radio telephone services; audio and/or video teleconference services; electronic mail; rental of telecommunications apparatus; on-line information services; data or information transmission, supply or display services using a computer data bank or by means of electronic communications networks.

40 Custom assembling (for others) of electrical fittings and wiring accessories, electrical installations, lighting, electric control, signalling, surveillance, alarm, access control and/or home automation system apparatus and installa-

tions.

41 Technical education and training in electricity and electronics applied to electrical fittings and wiring accessories; education and training in the assembly, installation, use and maintenance of electrical fittings and wiring accessories, electrical installations, lighting, electric control, signalling, surveillance, alarm, access control and/or home automation system apparatus and installations; training in the use of software in the aforesaid areas; information on technical education and training in the aforesaid areas; publishing, lending and rental of all printed, recorded audio and audiovisual supports, including audio and/or video cassettes and disks, visual and audiovisual compact optical disks, books, newspapers, magazines, electronic newspapers and magazines, periodicals, information bulletins, publications, brochures, manuals, guides, all relating to electrical fittings and wiring accessories, or intended for electricians and installers of electrical apparatus; the aforesaid services being consultable or available notably by telematic means or on telecommunications or computer networks.

42 Technical information about electrical fittings and wiring accessories, electrical installations, lighting, electric control, signalling, surveillance, alarm, access control and/or home automation system apparatus and installations; design, development, maintenance, updating, lending and rental of computer programmes, software and data bases, concerning electrical fittings and wiring accessories or intended for electricians and installers of electrical apparatus or for the purposes of technical education and training; rental of access time to the aforesaid data bases and to sites on electronic communications networks in the area of electrical fittings and wiring accessories; engineering, surveys, professional consultancy, production of drawings, technical consultancy, technical research, all in the areas of electrical fittings and wiring accessories, electrical installations, lighting, electric control, signalling surveillance, alarm, access control, home automation systems; clubs for contacts between professionals concerned by electrical fittings and wiring accessories; the aforesaid services being consultable or available by telematic means or on telecommunications or computer networks.

PORTAX

Indication relating to the nature or kind of mark: standard characters.
List of goods and services:
1 Unprocessed artificial resins, unprocessed plastics.
7 Plastics working machines.
8 Hand tools and implements for use in plastic working.
16 Plastic materials for packaging (included in this class); office requisites (except furniture) and instructional and teaching material (except apparatus) made of plastic (included in this class).
17 Rubber, gutta-percha, gum, asbestos, mica and goods made from these materials (included in this class); plastics in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, not of metal.
20 Goods made of plastic (included in this class).
21 Household or kitchen utensils and containers (not of precious metal or coated therewith); combs and sponges.
22 Ropes, string, nets, tents, awnings, tarpaulins, sails, sacks and bags (included in this class); padding and stuffing materials (except of rubber or plastics); raw fibrous textile materials.
23 Yarns and threads, for textile use.
24 Textiles and textile goods (included in this class); bed and table covers.
27 Carpets, rugs, mats and matting, linoleum and other mate-

rials for covering existing floors; wall hangings (non-textile).

28 Games and playthings; gymnastic and sporting articles (included in this class); decorations for Christmas trees.

34 Smokers' articles.

35 Advertising; business management; business administration; office functions; collecting, recording, archiving and systemizing data (included in this class); arranging and closing commercial establishments for others (terms considered too vague by the International Bureau (Rule 13(2)(b) of the Common Regulations); arrangement for the purchasing of goods for others; arrangement of services for others (terms considered too vague by the International Bureau (Rule 13(2)(b) of the Common Regulations); marketing studies and opinion polling; public relations; sales promotion (for others); publication of business statistics (terms considered too vague by the International Bureau (Rule 13(2)(b) of the Common Regulations); business inquiries, business investigations, business information; business research and business organisation consultancy; management and turnover of marketing strategies (terms considered too vague by the International Bureau (Rule 13 (2)(b) of the Common Regulations); auctioneering; employment agencies; collecting, recording, processing and providing of data.

36 Insurance; financial affairs; monetary affairs; real estate affairs; arrangement of financial services; arrangement of deals in the field of insurance, financial and real estate affairs; arrangement of monetary affairs.

38 Telecommunication; collecting, recording, processing, providing and transmission of news, information, pictures and texts, transmission of data, for electronic execution of trade activities (e-commerce) in the Internet via interactively communicating computer systems (electronic media/Internet).

39 Transport; packaging and storage of goods.

40 Treatment of materials.

41 Education; providing of training; entertainment; sporting and cultural activities; publication of books, newspapers, magazines and electronic media; organising, arranging and conducting of trade affairs (terms considered too vague by the International Bureau (Rule 13(2)(b) of the Common Regulations), congresses, symposiums, exhibitions, expert's lectures, roadshows and conferences; conducting a club for teaching and entertainment purposes.

42 Professional consultancy, excluding business consultancy; research and development concerning new products for others; services of an online provider, namely providing data bases and interactive forums; providing access to data bases (terms considered too vague by the International Bureau (Rule 13(2)(b) of the Common Regulations); development, producing, programming and servicing of Internet presentations, Web sites, online shops, Internet data bases and information systems as well as e-commerce solutions for electronic execution of trade activities in the Internet (terms considered too vague by the International Bureau (Rule 13(2)(b) of the Common Regulations) providing of Web sites in the Internet for others (webhosting); building up and conducting of multimedia communities (terms considered too vague by the International Bureau (Rule 13(2)(b) of the Common Regulations).

Name and address of the representative: Dr. Peter Riebling Patentanwalt, Postfach 3160, D-88113 Lindau (Germany).

BUNDESDRUCKEREI-GRUPPE

Classification of figurative elements:
3.7; 26.3; 27.5.

List of goods and services:

1 Chemical agents for manufacturing dyestuffs, bleaching products, mordants, photographic developers and fixers, chemical products for brightening dyestuffs, salts for coloring metal, unexposed and photosensitive films, photographic papers and plates, galvanizing products, solvents for varnishes, metal tempering products; the aforesaid products in particular for making valuable or safety documents.

2 Dyestuffs, lacquers, inks, toner (ink for photocopiers), dyes, thickeners and thinners for paints, pigments, sheet metal and metal powder for printers, anti-tarnishing products for metals; the aforesaid goods in particular for manufacturing valuable and safety documents.

6 Sheets of all types, except for packaging, particularly hologram sheets of metal.

7 Painting machines, dyeing machines, inking apparatus (printing), printing presses, printing machines, printing plates, printing rollers (machines), type-setting machines (printing).

9 Holograms of all types, particularly hologram matrices, embossed hologram sheets, distinctive holographic safety features, stamped in radiation-hardening substances, universal microstructures, which can be embedded in distinctive safety features; distinctive safety features scanned optically or mechanically, for protection from counterfeiting, imitations, and so on; kinescope recordings; computers; computer software in general, software for paperless order processes for personal documents, coding software and signing software, business computer software, magnetic encoders, computer peripherals, machine-readable data media of all types, data processing apparatus, computer printers, modems, monitors (computer hardware), computer memories, keyboards, computer scanners, video cameras, photographic cameras (digital cameras), optical detection apparatus, integrated switching circuits, also on memory cards; sound and image recording, transmitting and reproducing apparatus; antennas and transponders; feelers, screens for photoengraving; testing apparatus for valuable and safety documents, particularly for banknotes, documents, personal identifica-

tion cards, stamps, stocks; distinctive markings for sound recognition on printing products, including sheets, packages and cards of all types (for instance chip cards, bank cards, telephone cards).

16 Paper of all kinds, particularly safety paper consisting of physical and/or chemical safety elements, also providing protection from imitations; articles of paper or of cardboard included in this class; printed matter, particularly labels; bookbinding material; photographs, images, graphic representations, photo-engravings, drawings; stationery; plastic packaging materials, included in this class; printing blocks, printing type; safety products such as customized documents, banknotes, identity cards and tickets.

17 Sheets of all types, except for packaging, particularly hologram sheets or sheets of synthetic material, safety banners, yarns, fibers and threads made of all type of material, particularly those placed as safety features in valuable and safety documents, semi-treated plastic materials.

35 Corporate management consulting, particularly economic and systematic analysis of production and delivery; business investigations; consulting in the field of quality control, certification, standardization, marketing and communication, particularly animation and displaying methods; market study; business consulting; business research; compilation of statistics; advertising particularly development and provision of advertisements, of brochures and printed matter; setting up and operation of a database server for storage, processing and transmission of data relating to distinctive features of safety documents and valuable products.

36 Insurance underwriting; financial affairs; monetary affairs; real estate affairs.

37 Assembly, repair and maintenance of computer hardware, of office apparatus, of electrical apparatus and of machines.

38 Communications via computer terminals; facsimile transmission; transmission of digital information; transmission of digital information by using symmetrical or asymmetrical encryption methods and/or a digital signature.

40 Printing of designs, photographic film development, engraving, laser engraving, treating of all type of metals, treating of all types of synthetic materials, treating of all types of papers, introduction of distinctive safety features in radiation-hardening substances, particularly of distinctive holographic and micromechanical safety features, distinctive optical, capacitive and machine-readable safety features and distinctive safety features for protection from counterfeiting and imitations.

41 Arranging and conducting of seminars.

42 Security-related consulting, particularly analysis of weak points and development of protection schemes; consulting in the field of industrial law; project study; research services in the field of new products for third parties, development of new products for third parties, particularly security techniques making use of electronic chips (for computers), transponders, antennas, detectors, holograms, kinescope recordings, special printing techniques involving the introduction of physical and/or chemical protection elements, safety paper and paper for protection from counterfeiting; intellectual property licensing; legal research; exploitation of commercial protection rights; expert appraisals; development, updating, maintenance and rental of computer software, particularly of data banks, logistic tracking systems, solutions for paper centers, software for paperless order processes for personal documents, coding and signing software; rental of data processing apparatus and of accessories thereof; computer consulting, detective agencies; chemical laboratories; printing; engineering (engineering work); photography; quality control; fashion designing services; research in the field of physics; services provided by a electronic data and data processing and electronic media company, namely development of encryption projects and means and other basic technologies guaranteeing protection in the field of information and communication technology; development of security infrastructures; indexing of security infrastructure users; specialized services in connection with document security regarding the development, production, distribution of documents, namely code creation, code storage, code administration; functions rendered by a fiduciary agent in connection with the storage, development and use of keys, of digital data codes, authentication (certification), indexing of users, customization; operation of centralized and decentralized computer systems (computers) for the development of special services, development and use of processes of identification and authentication and of their codes; services in the field of authentication and relevant information technology applications, for instance automatic date-stamping services; digitization of signatures and autographs; development of access protection systems; special services for setting up and operating access protection systems in connection with digital signature codes; development of systems for digital data and information reproduction or counterfeiting; development of digital watermarks, development of digital fingerprints; development of electronic payment systems.

26.1; 27.5.

Description of the mark: The trademark consists of the invented name AMA universal appearing on two lines, where the word AMA is in stylised, uppercase lettering, and the word uni-

versal is in stylised, lowercase lettering; on the left of this invented name, there is a substantially elliptical figure enclosing a curved line of varying thickness with concavity facing inwards and having a first end departing from a top left-hand portion of the edge of the ellipse, and a second end located approximately at the centre of the ellipse; the line increases in thickness starting from the first end, to reach its maximum thickness at the concave portion and then decreases in thickness starting from the concave portion, to become thin again at its second end; there is a horizontal line which underlines this entire graphic device. No colours are claimed.

List of goods and services:

7 Machines, appliances and installations for cleaning and washing, machines and installations for dry cleaning, washing machines and installations utilising water, washing machines, machines for washing metals, liquid coolers for washing installations, filters for washing installations, ironing machines, smoothing presses, finishing machines, drying machines, conveyors, bagging machines, pneumatically-controlled manikins, equipment for removing stains (appliances for cleaning clothes and fabrics using air and water under high pressure), appliances for laundries.

9 Hardware and software for mending and identifying items of clothing, fabrics and textile products during washing and dry-cleaning processes, peripheral apparatus and components and accessories for said products.

11 Cooling appliances and installations, coolers for liquids, filters, steam generators, drying appliances, machines and appliances for dry-cleaning, combinations and parts of all the aforementioned machines and appliances included in this class.

EUROPART Holding GmbH
13, Martinstrasse,
D-58135 Hagen
(Germany).

Name and address of the representative: LOVELLS BOESEBECK DROSTE Rechtsanwälte, 50, Warburgstraße, D-20354 Hamburg (Germany).

Classification of figurative elements:
26.3; 26.11; 27.5.

List of goods and services:

1 Technochemical preparations, namely battery acids, brake fluids, binding and oil binding agents, separating agents, fluxing agents, soldering powder, frost protection and de-icing preparations; distilled water, adhesives (not for office and household purposes); glues; leak detectors; flame protection preparations; assembling paste.

2 Paints and lacquers; fillers, primers and metal sprays, in particular aluminium sprays, high-quality steel and zinc sprays; anti-corrosive and metal protection preparations (anti-seizing); touch up pastes; thinners.

3 Technochemical preparations, namely tar removers, maintenance sprays, rust removers, sealant and adhesive removers, oil and grease removers; cleaning and care preparations, benzine brake cleaners, cold cleaners, foam cleaners, plastic cleaners, plastic care preparations, tarpaulin and lorry cleaners, maintenance sprays, car shampoos, glass cleaners, rim cleaners, anti-misting agents; preparations for cleaning and caring of skin and hands, in particular handwashing pastes, hand protection creams, skin care and skin protection preparations; abrasives, abrasive paper and abrasive tapes, polishing preparations.

4 Technical oils and greases, in particular battery pole greases, friction bearing grease and roller bearing grease, creep oils, chain and rope sprays, lubricants and separating agents.

5 First aid boxes and first aid trunks; first aid sets.

6 Containers of metal for home and office; sanitary and personal cabins of metal; strong rooms, strong boxes; metal containers, in particular transport, storage and tool boxes, tool chests, document and filing boxes, document tubes, replacement part boxes, replacement parts chests, hazardous goods chests, cans, oil spray cans, mugs (containers), funnel tubes and discharging hoppers, collecting pans and collecting appliances for waste oil and other liquids, pump spray containers; drain cocks and filler necks for canisters; container accessories, namely container locks, lifting links, precision rollers and bearings therefor; warning markings, plates and signs and fastenings therefor; goods of metal, namely supporting frames, hoisting chains, stacking hooks, step ladders, steps, stairs, warehouse racks, scaffolds, trestles, working platforms, bicycle stands, barriers, barring railings, blocking hoops, barring bollards, blocking posts, traffic guiding cones, flag poles; metal fences; system and pallet racks of metal; goods of metal, namely hose and cable drums, hose and cable rollers; tube and hose fittings of metal; metals for soldering and welding; stands for cutting packing material; fastening elements of metal, in particular screws, nuts, rivets, pins, bolts, wedges, springs, rings, disks and split-pins; dowels and anchors of metal; wood joining elements of metal; parts of rubber-bonded metal, in particular buffers and machine beddings; display boards (predominantly) made of metal as well as stands and holding devices therefor; butane and propane gas containers as well as armatures, hoses and holding devices therefor; trestles; devices for securing loads for vehicles, in particular lashing straps, lashing chains, pull rings, lashing rails, mountable and clamping profiles, locking beams, partition wall locks, load securing locks, locks, snap-on pins; system-building parts of metal, rooms and buildings containing the aforementioned in the interior and exterior; load beams; discharge hoppers (non-mechanical) of metal; floor grates.

7 Machines and tools for vehicle repair and maintenance; pneumatic pistols, pneumatic tools, in particular impact screw drivers, riveting machines, riveting and chisel hammers; riveting tools (parts of machines); grinding machines, abrasive pencils, surface grinding machines and grinding wheels (parts of machines); metal-cutting tools, clamping tools and screwdrivers and spanners, drilling tools, saw blades, brushes, cutting-off wheels, grinding disks (parts of machines); pumps, in particular oil and grease pumps; compressed-air, hydraulic and pneumatic valves and regulators; oil presses and grease guns; bulkhead valves; shoe-polishing, sweeping and cleaning machines; high-pressure cleaning apparatus; waste presses; gas welders; suction machines; machine tools; motor-operated scythes; straw cutters; building machines; generators; machine-driven mixing apparatus for fluids; chain blocks, rope tackle blocks and lifting blocks; rope winches; parts of all aforementioned products; working lifts, ball bearings; electric cleaning apparatus, in particular vacuum cleaners; supporting winches, driving belts.

8 Assembly and hand-operated tools; hand-operated apparatus for repair and maintenance of vehicles; jacks; apparatus for wheel and tyre changing; profile cutters; press on pliers for plastic pipes; thread cutters; filling and ventilating apparatus for brake and transmission hydraulics including filling hoses and ventilation bottles; tool boxes and tool chests; shovels and spades and fastenings therefor; hand saw blades; clamping tools; spraying, atomizing and blowing pistols; mobile floor-marking apparatus; hand-operated packaging apparatus; non-electric soldering tools, welding and cutting torches as well as hoses and fittings therefor; grease guns and grease filling apparatus; hand-operated tools for building purposes; parts of all aforementioned products; lifting jacks.

9 Electric motors; electric tools; electric apparatus and equipment for maintaining motor vehicles, in particular battery-charging equipment, battery testing equipment, rapid start chargers, battery charging pieces; transformers, voltage transformers, voltage dividers, current rectifiers and inverters; jump leads; cable drums; measuring tools, measuring and volume measuring apparatus; refractometers; temperature indicators; pressure gauges; batteries; distilling apparatus (ion exchangers); fire extinguishing apparatus; cupboards for fire-extinguishing apparatus; warning lights, signal transmitters and warning triangles; safety clothing, in particular warning vests, safety shoes, disposable protective clothing, protecting masks, protective shields, eye protectors, ear muffs, safety helmets; safety belts and harnesses; protective curtains, walls, blankets, mats and cushions; mirrors for industrial safety and monitoring purposes; electric soldering tools, electric welding apparatus, arc welding apparatus; welding mountings and cables; time recorders; scales and counting scales; calculators; telephone and display consoles; installation material for electrotechnical purposes; safety devices, safety cut-outs; parts of all aforementioned products.

10 Stretchers and litters; eye-wash bottles.

11 Lamps and lights, in particular number plate lights, pocket torches, work searchlights, workshop lamps; filament

lamp replacement boxes; cool boxes and refrigerating cabinets; heating apparatus, heating boxes; auxiliary heating; infrared radiators; microwave apparatus; tea and coffee-making machines; gas lighters and flints for gas lighters; room conditioners and air dehumidifiers; hair and hand dryers; parts of all aforementioned products.

12 Commercial vehicle parts; (filled) boxes for replacement parts; supporting devices for vehicles, namely sustainers, supporting wheels; stop blocks for motor vehicles of metal or plastic; spindle brakes; forked draw-bars and tow bars; snow chains; devices for securing loads for vehicles, in particular half pockets (for supporting lock bars), steady legs, impulse starters, tool and gear wagon, roller work benches; steering wheel aids (hand knobs) for fork lift trucks; transport and hauling gear, strew trollies; hose and cable trucks; mobile containers; natural skin and seat covers for vehicle seats; trailer couplings; roof racks; parts of all aforementioned goods; parts of commercial vehicles and of motor vehicles.

14 Horological instruments.

16 Office requisites (except furniture); shredding machines; labelling apparatus; stamp sets; adhesive tapes and tape guns therefor; office and writing boards; writing utensils.

17 Caulking and expanding foam fillers; sealings, sealing tapes, gasket sheets; plastic foils; road barriers of hard rubber; stoppage and guiding elements of plastic; hoses (not of metal); adhesive tapes and unroll devices therefor, for packing and industrial purposes.

18 Suitcases and bags.

19 Non-metallic system-building parts, rooms and buildings containing the aforementioned in the interior and exterior; rolling gates; mortar.

20 Outlet tabs (not of metal) for canisters; ladders (not of metal); warning markings, boards and signs, traffic routing cones (not of metal); display boards (predominantly) made of plastic materials as well as stands and holding devices therefor; showcases and vitrines; furniture, in particular office, workshop, work, garden and park furniture; dowels of plastic; tube and hose joints of plastic.

21 Containers (not of metal), in particular transport, storage, storage cabinets and tool boxes, tool cases, document boxes, document tubes; cases for replacement parts, cases for dangerous goods, cans, pails, spray holders and storage bins, funnel tubes, measuring caps, pump spray holders, waste containers; siphons (with suction ball); small cleaning instruments, in particular brushes, sponges, paintbrushes and scrapers; washing and cleaning cloths; cleaning cloth rolls; floor stands (dispensers) for cleaning cloth rolls; dispenser boxes for cloths for washing and cleaning; dispensers for hand towels and toilet paper; buckets, metal brushes; soap dispensers.

22 Ropes and cables, in particular hoisting slings; lashing straps and bale ties; covering nets; devices for securing loads for vehicles, in particular lashing straps.

25 Work clothing, work shoes and boots, work gloves; fleece vests.

27 Door mats; floor coverings.

35 Collecting and supplying of business and marketing data and of business and marketing information.

37 Repair, namely repair and maintenance of commercial vehicles.

41 Providing of training and education in commercial, business and/or organisational matters.

Basic registration: Germany, 17.11.2000, 300 37 024.5/09.

Designations under the Madrid Agreement: Albania, Algeria, Armenia, Austria, Azerbaijan, Belarus, Benelux, Bhutan, Bosnia and Herzegovina, Bulgaria, China, Croatia, Cuba, Czech Republic, Democratic People's Republic of Korea, Egypt, France, Hungary, Italy, Kazakhstan, Kenya, Kyrgyzstan, Latvia, Lesotho, Liberia, Liechtenstein, Monaco, Mongolia, Morocco, Mozambique, Poland, Portugal, Republic of Moldova, Romania, Russian Federation, San Marino, Sierra Leone, Slovakia, Slovenia, Spain, Sudan, Swaziland, Switzerland, Tajikistan, The former Yugoslav Republic of Macedonia, Ukraine, Uzbekistan, Viet Nam, Yugoslavia.

Description of the mark: The name "VOLTIMUM" is printed in black type with outline shadow, on a rectangular inset with a yellow background (PMS reference 116); the dot on the letter "i" is red (PMS reference 485); the two portions of the ellipse are blue (PMS reference 300); colour combination: yellow, red, blue and black.

Colors claimed: Black; yellow (PMS reference 116); red (PMS reference 485); blue (PMS reference 300); colour combination: yellow, red, blue and black.

List of goods and services:

9 Apparatus and instruments for electric current supply, for conducting, transmitting, distributing electric current; electrical fittings and wiring accessories; switches; section switches; changeover switches; relays; toroids; distribution frames; cut-outs; fuse cartridges; industrial cartridges (electrical); electrical connections; electrical connection boxes; supply harnesses; terminal blocks; lightning arresters; push actuators; electric indicator lamps; dimmers; time-lag switches; remote control switches; contactors; timer switches; electric control devices for heating and energy management; heating programmers; thermostats; load shedders; meters; ammeters; voltmeters; transformers; autotransformers; buzzers; bells (alarm apparatus); chimes (signalling apparatus); alarm apparatus and instruments; detectors; control and command apparatus linked to fire alarm systems; boxes and cabinets for electric and electronic apparatus and fittings therefor; subscriber boards (electricity); trunking, mini-trunking, skirting trunking and columns for electrical apparatus and electric conductors; cable runs for electric conductors; technical distribution slabs (electricity); electrical fittings and wire accessory units; junction boxes (electricity); plug connectors; connectors; junction contacts; junction grids; terminals (electricity); cut-out bars; plugs (connectors); adapters (electricity); extension cords; sockets; multi-outlet socket blocks; household programmers; electric cable winding devices; control apparatus for atmospheric lighting; electric controls for roller shutters; electric controls for blinds; electric controls for lighting; cable outlets; call panels; supports, surrounds, plates adapters and mechanisms for electrical fittings and wiring accessories; flush boxes (electricity); transmitters; receivers; aerials; apparatus for controlling heating and other functions by telephone; electric contacts for doors; door interphones for buildings and houses; interphones; videophones; electric door openers; controls with coded keypads for access control; remote controls; infrared controls; interfaces for detectors; sirens; boxes for sirens; radio and television reception central units (terrestrial and satellite signal amplifiers); electric apparatus for controlling and managing lighting; self-contained access control readers and electronic keys therefor; feed-through and/or patch panels (electrical connections); drawers for optical fibres; remote control boxes; electromagnetic suction cups and automatic controls for firedoors and emergency exits; emergency electricity supply cabinets; audio diffusers for emergency evacuation; control boxes for emergency exits and extinguisher systems; boxes for emergency cut-out or stop devices; controls for smoke removal fans; alarm central units; rotating lights (signalling); flashing lights; blinking lights; luminous signals; flashing lights with audio signal; consoles (desks) and cabinet-consoles for electrical or electronic apparatus and fittings therefor; feed-through sleeves (electricity); ducting for electric cables; progressive starter retarders; electric power supplies; junction blocks; control modules; modules with diodes; cable end caps; markers for electric conductors; clamps for conductors and electrical fittings; momentary contact push-buttons and turning knobs for electric controls and signalling; mushroom head emergency cut-out buttons; industrial alarms; industrial plugs and sockets; industrial socket cabinets; connector bases; moveable sockets; apparatus, devices and instruments for technical teaching and training in electricity and electronics as well as in the assembly, installation, use and maintenance of electrical apparatus and installations, including cabled teaching panels, equipped with electrical circuits, fittings and/or apparatus, synoptical switchboards, simulation apparatus and installations; batches of ready-to-mount parts and fittings for electrical or electronic apparatus, for the purposes of technical education and training; video cassettes and digital video discs pre-recorded with films intended for technical education and training purposes, all in the area of electrical fittings and wiring accessories; software for education, instruction and training, notably in the form of floppy disks, CD-ROMs, recorded databases, all in the area of electrical fittings and wiring accessories; parts and fittings for all the aforesaid goods; software to aid in the design and creation of electrical installations, to aid in the determination of the nature, quality, properties and quantities of apparatus and equipment necessary to these ends as well as of the rules of standardisation and conformity applicable to the latter, to aid in the writing of the descriptions of the aforesaid apparatus and equipment, in the costing and updating of the corresponding quotations, in the ordering of the aforesaid apparatus and, in the invoicing, the displaying of cost prices, to aid in sales, in the monitoring of worksites; software for producing drawings of electrical installations; software for taking and managing orders, notably for electrical fittings and wiring accessories, with costing at the distributor's prices; software for managing customer files; exploration software allowing access to digital information services on computer and telematic networks, the retrieval and displaying of data and information (such as: catalogues, electronic documentation, product manuals, certificates of conformity, study software, multimedia presentations, wiring diagrams, software for taking and managing orders with costing at the distributor's prices), all in the area of electrical fittings and wiring accessories; recorded databases in the area of electrical fittings and wiring accessories; software for the identification of conductors and components used for the construction of electrical equipment, notably of the cables and apparatus in the electrical cabinets and boxes; plotting tables for the identification of electrical installations and circuits; electronic or optical devices for displaying the conductors and components in electrical fittings; software for creating labels for identifying modular electrical apparatus and circuits; software for designing distribution boards (electricity), notably the lists of parts, layout drawings, cost prices and installation costs.

11 Apparatus and installations for lighting, heating, refrigerating, ventilating, aerating, air conditioning, water and fluid supply; parts and fittings for all the aforesaid goods.

16 Printed matter concerning electrical fittings and wire accessories, as well as the areas of electrical installations, lighting, electric control, signalling, surveillance, alarm, access control and/or home automation systems; printed guides and manuals concerning the use of software in the area of electrical fittings and wiring accessories or intended for electricians and installers of electrical apparatus; teaching materials and aids for technical education and training in electricity as well as in the areas of assembly,

installation, use and maintenance of electrical apparatus and installations, including: teaching files, exercise books and work practice files and exercise keys, binders, index cards, transparencies (stationery), guides, manuals, instruction and maintenance notes, diagrams, posters, catalogues, teaching boards, models.

35 Advertising; distribution of promotional and advertising material, namely leaflets, prospectuses, catalogues, printed matter and samples; publication and dissemination of advertising matter and promotional and advertising texts; rental of advertising space; publication of advertising texts; constitution and updating of commercial and advertising material and catalogues of goods and services; constitution and updating of customer files; selection of goods and services (for others); marketing services; demonstration of goods; advertising by mail order; bill-posting; radio, television, telematic and cinema advertising and promotion, as well as on telecommunications or computer networks; organisation of exhibitions and events for commercial and/or promotional and or advertising purposes; commercial and business information services; assistance to companies with their commercial strategy; business management assistance; commercial administration; compilation and exploitation of statistical data; statistical information; marketing research and studies; market surveys; opinion polls; public relations; commercial information agencies; arranging newspaper and periodical subscriptions (for others); document reproduction; document layout; office work; management, collection and systematisation of data in a central file; computerised file management; auctioneering services; auctioneering services by means of electronic communications networks; inquiries services for others in the areas of business, commercial administration and company management; loyalty club or programme services for clientele, all for commercial and/or promotional and/or advertising purposes; all the aforesaid services relating to the areas of electrical fittings and wiring accessories, electrical installations, lighting, electric control, signalling, surveillance, alarm, access control and/or home automation system apparatus and installations; the aforesaid services being consultable or available by telematic means or on telecommunications or computer networks; subscriptions to telecommunications services.

36 Secure payment services on telecommunications and computer networks.

37 Installation, servicing, maintenance and repair services for electrical fittings and wiring accessories, electrical installations, lighting, electrical control, signalling, surveillance, alarm, access control and/or home automation system apparatus and installations; assistance services in the aforesaid areas, by telephone or by electronic communications networks.

38 Telecommunications services; satellite telecommunications; telecommunications by telematic means or on telecommunications or computer networks; communications by telephone and radio, by computer terminals, telematic means, by network computers; communications by fibre optic networks; transmission of information by electronic communications networks; radio and television broadcasting; broadcasting of radio and television programmes; transmission of sound, images, data, text, messages, including computer-aided transmission; facsimile transmission; telephone services; radio telephone services; audio and/or video teleconferencing services; electronic mail; rental of telecommunications apparatus; online information services; data or information transmission, services using a computer databank or by means of electronic communications networks.

41 Technical education and training in electricity and electronics applied to electrical fittings and wiring accessories; education and training in the assembly, installation, use and maintenance of electrical fittings and wiring accessories, electrical installations, lighting, electric control, signalling, surveillance, alarm, access control and/or home automation system apparatus and installations; training in the use of software in the aforesaid areas; information on technical education and training in the aforesaid areas; publishing, lending and rental of all printed, recorded audio and audiovisual supports, including audio and/or video cassettes and disks, visual and audiovisual compact optical disks, books, newspapers, magazines, electronic newspapers and magazines, periodicals, information bulletins, publications, brochures, manuals, guides, all relating to electrical fittings and wiring accessories, or intended for electricians and installers of electrical apparatus; the aforesaid services being consultable or available notably by telematic means or on telecommunications or computer networks.

42 Technical information about electrical fittings and wiring accessories, electrical installations, lighting, electric control, signalling, surveillance, alarm, access control and/or home automation system apparatus and installations; design, development, maintenance, updating, lending and rental of computer programmes, software and databases, concerning electrical fittings and wiring accessories or intended for electricians and installers of electrical apparatus or for the purposes of technical education and training; rental of access time to the aforesaid data bases and to sites on electronic communications networks in the area of electrical fittings and wiring accessories; engineering, surveys, professional consultancy, production of drawings, technical consultancy, technical research, all in the areas of electrical fittings and wiring accessories, electrical installations, lighting, electric control, signalling surveillance, alarm, access control, home automation systems; clubs for contacts between professionals concerned by electrical fittings and wiring accessories; the aforesaid services being consultable or available by telematic means or on telecommunications or computer networks.
